

Audrey is always busy with work. She works on game design, and her software needs a reliable Internet connection. The programs she needs use a lot of data, which is why she needs a high bandwidth.

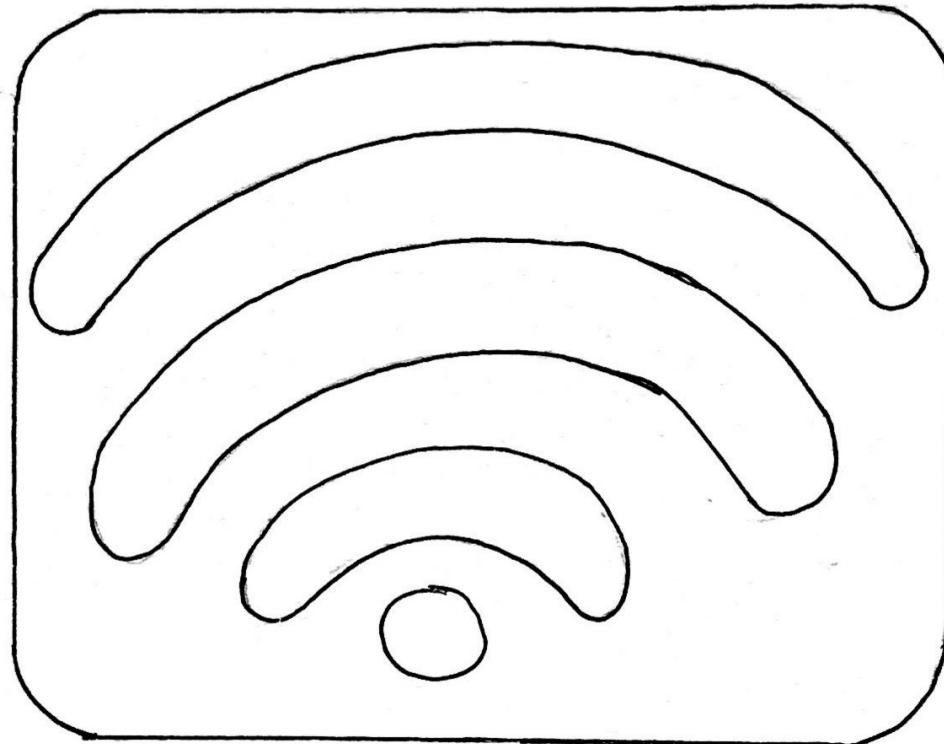

The poor bandwidth is slowing her down, and it is causing her to almost miss important deadlines. She also is having communication problems because it take so long to send an email or video to her coworkers.

Her coworkers are also having the same problem.
Team productivity is down because of this.

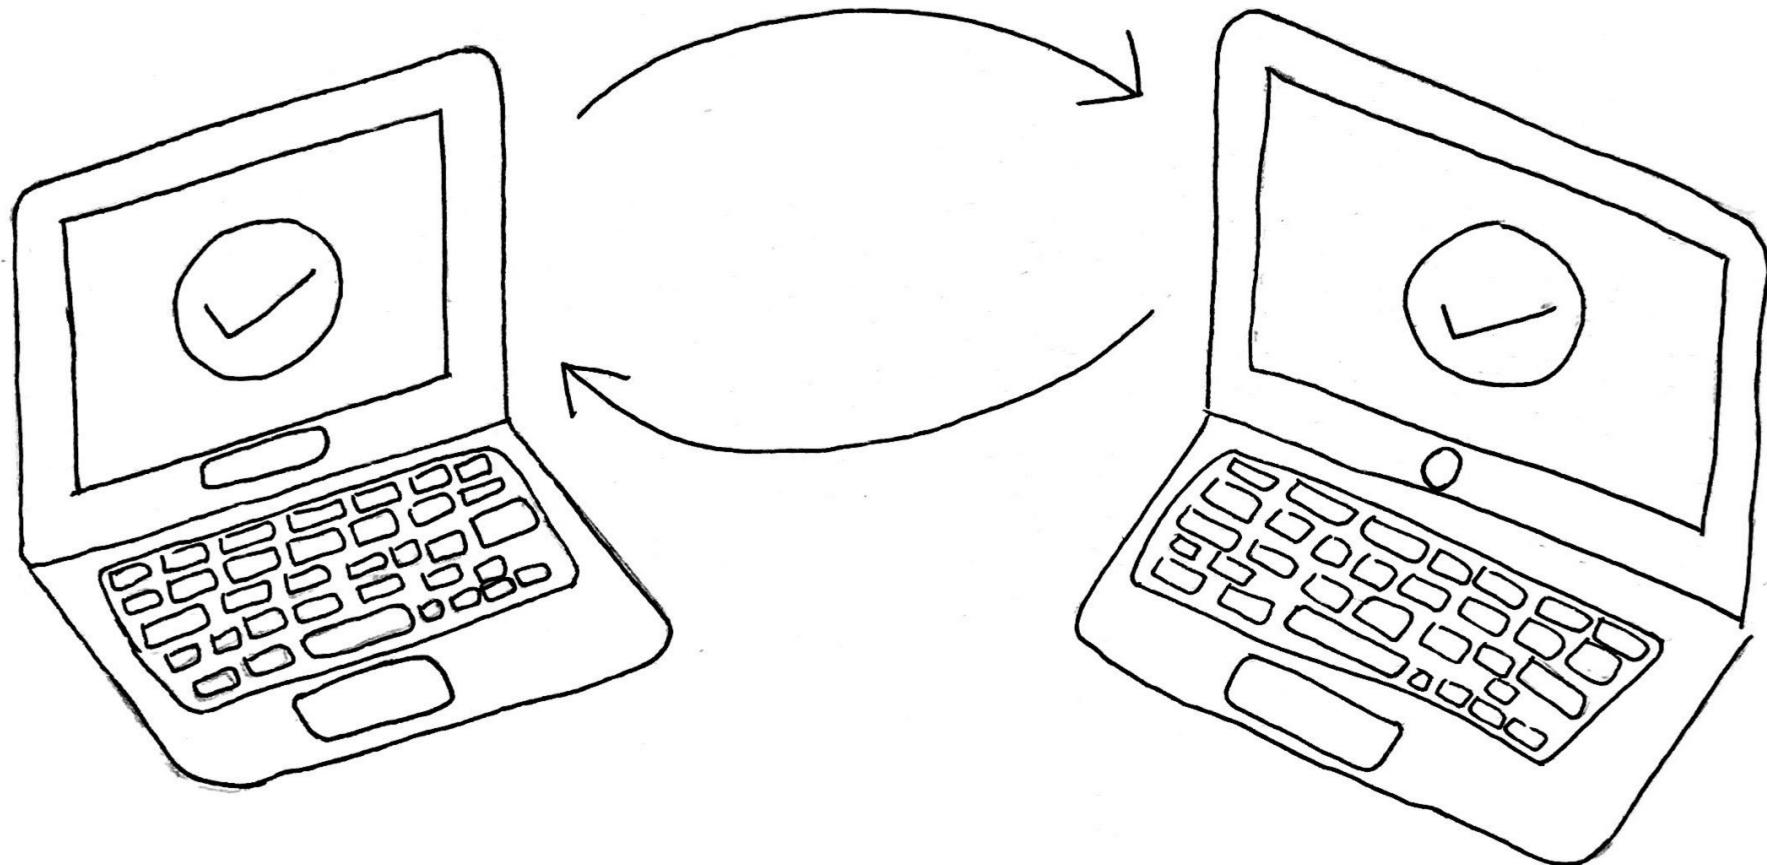

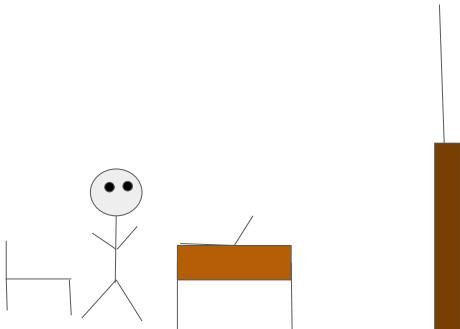

This issue is brought up in the next company meeting. Their manager suggests the Bandwidth Experience App.

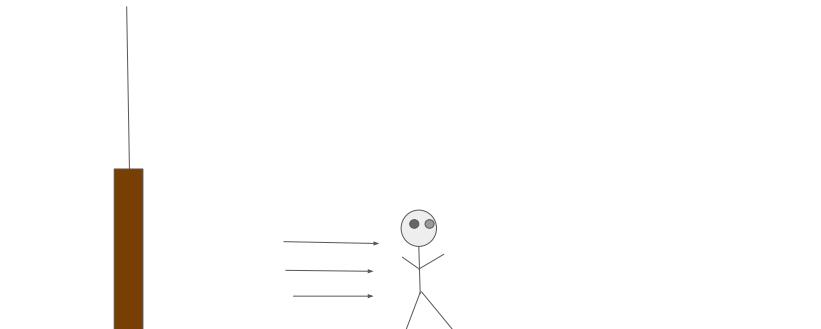

Audrey and the rest of her coworkers download the app.

The app was a success! Audrey can now quickly work with high-demand programs. Team productivity is also back up!

Davis Jones has been traveling around to different countries and he is currently in and is currently not enjoying his work in the country and needs increased internet connection and better bandwidth in the country.

One of Davis Jones's colleagues named James overheard his struggles and went to search a solution for his struggles with bandwidth in the country.

Programs that solve issues with Bandwidth and internet

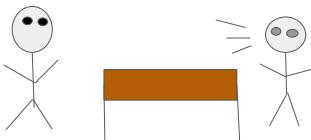

Bandwidth Experience Solutions Program

Internet Connectivity Program

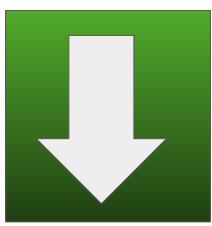

DELL

--	--	--	--	--	--

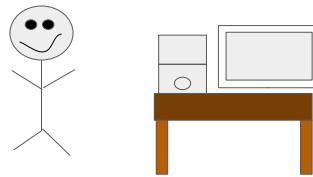

James went online and searched through the web to find a program named Bandwidth experience solutions which had good reviews which mentioned it helped with bandwidth issues and higher internet connection.

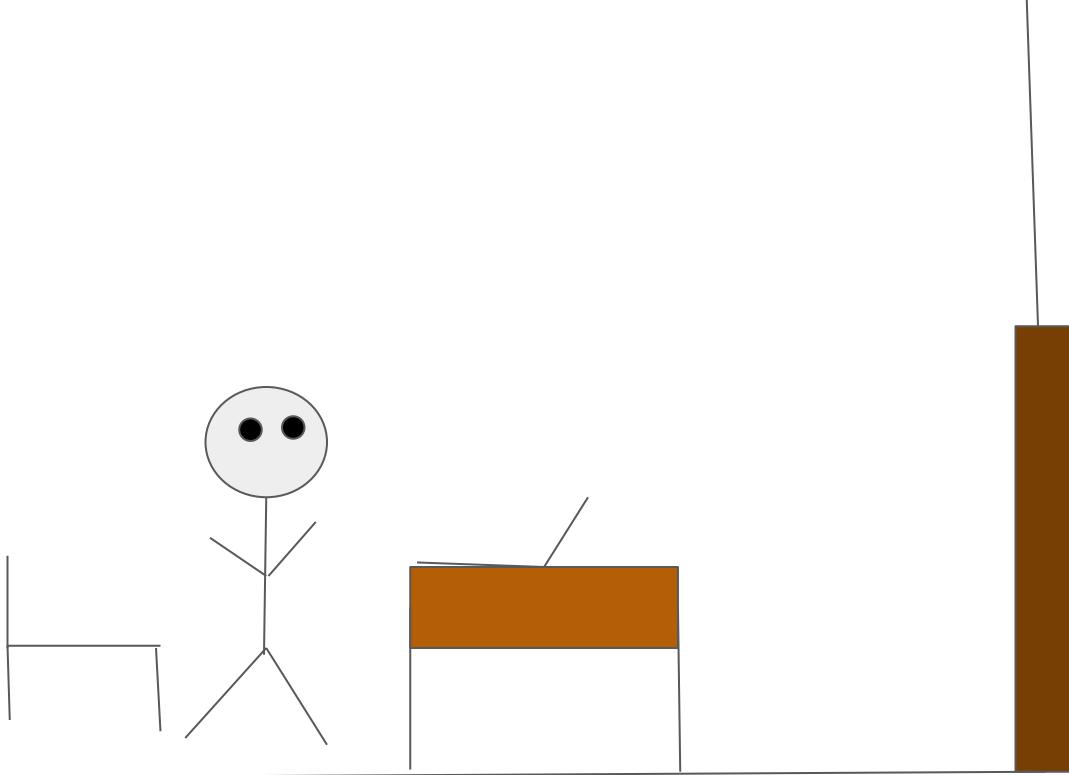

After finding the program, James spoke to Davis and mentioned the Bandwidth Experience Solutions Program and told him this would solve his internet and bandwidth issues.

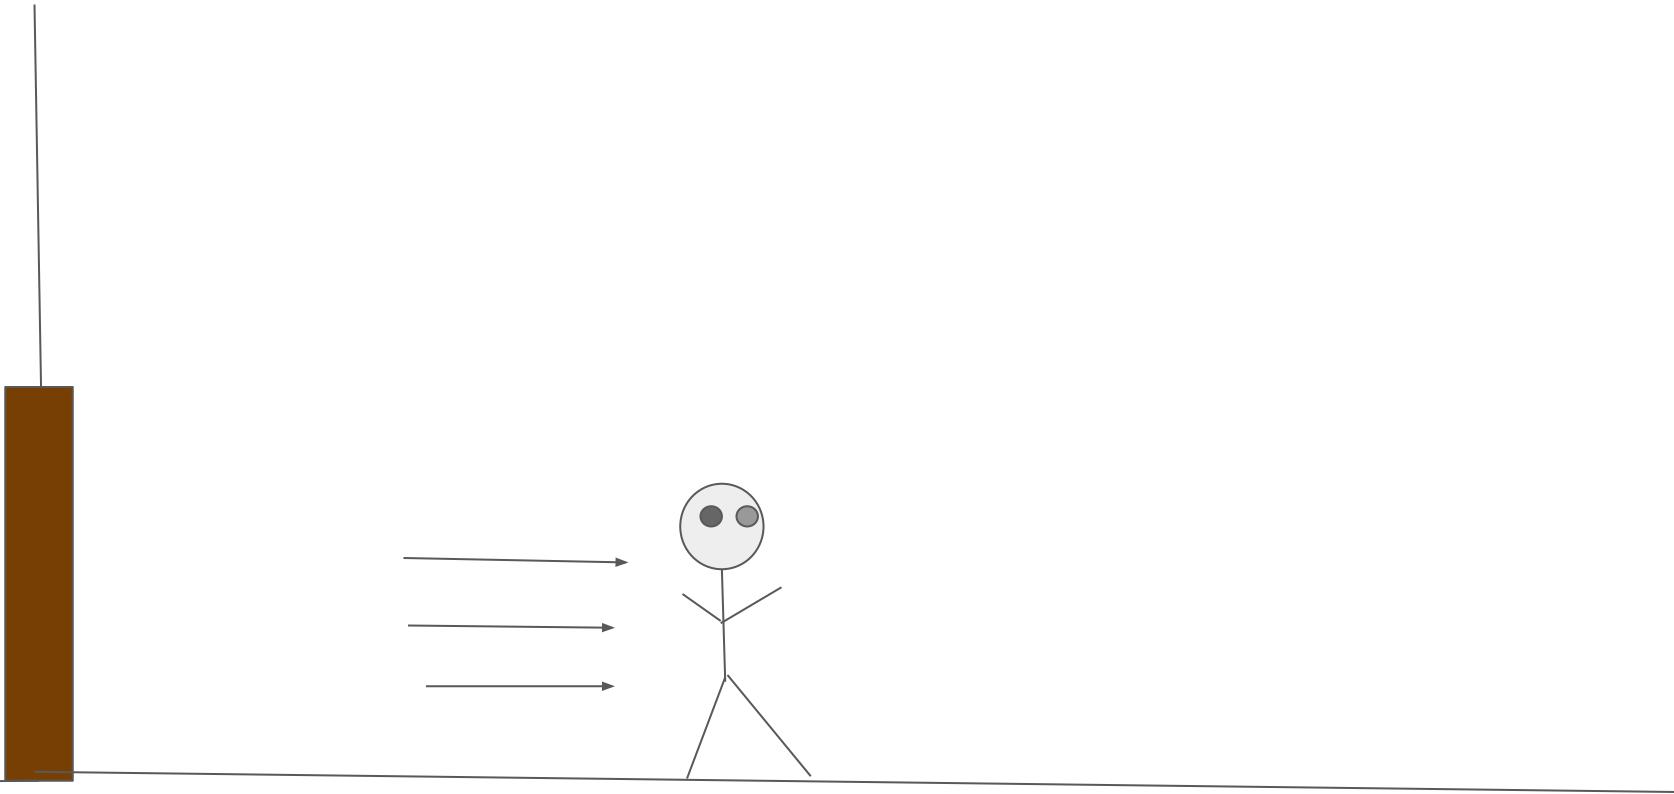

Davis took the information that James provided and downloaded the Bandwidth Experience Solutions program and it worked causing him to have a better bandwidth and higher internet connection to continue his work in the country.

Due to the Bandwidth Experience Solutions program became very effective Davis Jones was able to continue to build computers and software applications for the country with his improved bandwidth and internet connection.

Doctor Charles Dunworth has been very busy with the Peace Corps lately. He has been traveling to many underdeveloped nations around the world, lending his help wherever he can; however, the countries to which he travels have very poor Internet connectivity.

Charles asks colleagues about possible solutions to his problem. He learns that in order to send and receive the data he needs, Charles must improve his bandwidth availability and performance.

Doctor Dunsworth has repeatedly run into issues with accessing his patient records and files abroad, slowing down his practice and limiting the number of patients he can take in. Doctor Dunsworth would like to be able to both send and receive information quicker and more efficiently so he may best help those in need.

No internet

Try:

- Checking the network cables, modem, and router
- Reconnecting to Wi-Fi
- Running Windows Network Diagnostics

DNS_PROBE_FINISHED_NO_INTERNET

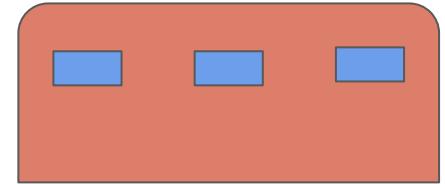

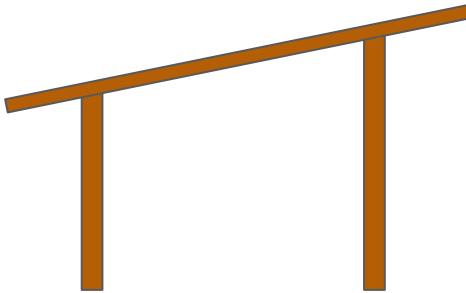

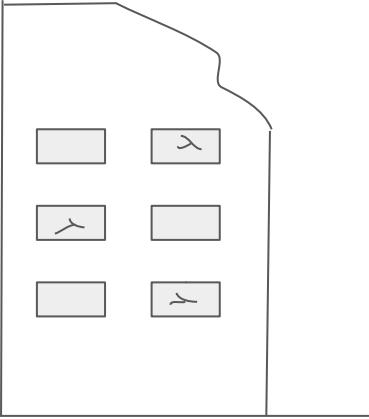

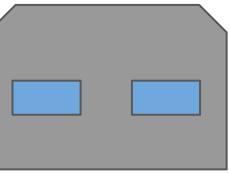

Through Googling, Charles finds the Bandwidth Experiences app. He downloads it to his work computer, and proceeds to try it out on his next journey to an impoverished nation.

After Charles downloaded and installed the Bandwidth Experiences software, he noticed a significant increase in his upload and download speeds, allowing him to run his practice as efficiently and smoothly as possible.

With his newfound ability to access patient files in countries with lower Internet speeds, Charles is now equipped to help those in need no matter where they are from!
