Scenario: You are a journalist who is always traveling across the country. You need to be able to access the latest news stories, but it is difficult to find a reliable connection when traveling. You want to always have access to breaking news in the palm of your hand.

Task 1: Log in to the Bandwidth Experience App.

Task 2: Browse through the top news stories for the day, and click on one to open it up.

Task 3: Pin a news story to your homepage so you can come back to it later.

Task 4: Go to your settings and customize what kinds of news you would like to see on the homepage. (Note: this feature requires expanding the prototype.)
